MEMORANDUM FOR SEE DISTRIBUTION

25 Feb 97

FROM: AFMC/CV  
4375 Chidlaw Road, Suite 1  
Wright-Patterson AFB OH 45433-5001

SUBJECT: AFMC Weapon System Pollution Prevention (P2) Center Working Group (CWG)

1. We have officially established the AFMC Weapon System P2 CWG to resolve common weapon system P2 problems. This group has been active as an ad hoc working group since Nov 95.
2. AFMC bases account for 71 percent of the Air Force hazardous material use. Eighty percent of DoD's hazardous material generations can be tied to weapon system production, maintenance, and disposal. Thus, in order for P2 to be successful, an integrated weapon system/installation approach is critical.
3. The attached charter outlines the mission of the group and each organization's responsibilities in support of the CWG. Attachment 2 is a list of current primary CWG members, most of who have been instrumental in the development of this charter.
4. Our point of contact is Mr. Ray Olfky, HQ AFMC/DRMA, DSN 986-3680.
